

# ThermaMAX™ Ribbons for 501, PM4i, PD4 & PX4i

x = preferred configuration

o = optional configuration, works in printer, but roll capacity isn't fully used.

o\* =ribbon spindle adapter needed

PART NUMBER	Quality	Width (mm)	Length (meter)	Rolls per box	Ink coating side	core ID
-------------	---------	------------	----------------	---------------	------------------	---------

## TMX™ 1301

General purpose, economical solution compared regular wax ribbons. Mainly used with Duratran I / Uncoated and Duratran IIE Coated papers.

I90670-0	TMX™1301	110	220	10	in	1*	o
I90674-0	TMX™1301	110	300	10	out	1*	o
I90671-0	TMX™1301	110	450	10	in	1*	x

## TMX™ 1310 / GP02 RIBBONS.

General purpose, standard wax ribbons providing excellent, cost effective print performance on Duratran I / Uncoated and Duratran IIE Coated papers and matt coated synthetics

## TMX™ 1305 RIBBONS.

Resin enhanced wax ribbons that provides higher abrasion/smear resistance compared to standard wax when used with Duratran I / Uncoated, Duratran II / Coated papers and certain synthetic

I90657-0	TMX 1305	60	450	20	in	1*	x
I90658-0	TMX 1305	90	450	20	in	1*	x
I90659-0	TMX 1305	110	450	10	in	1*	x

**TMX™ 2070 RIBBONS.**

High end wax-resin ribbons that provides superior abrasion/smear resistance in combination with high temperature resistance up to 150C. Especially suitable for Duratran II / Coated papers and synthetic materials like PE, PP and Polyesters

I90661-0	TMX 2070	60	450	20	in	1"	x
I90662-0	TMX 2070	90	450	20	in	1"	x
I90663-0	TMX 2070	110	450	10	in	1"	x

**TMX™ 3710 / HR03 RIBBONS.**

Durable resin ribbons providing excellent high resistant images on Duratran Polyesters and other high end synthetics.

UL approved with our Duratran High Gloss Polyester.
