## BARCODE NEWS - SEPTEMBER 2008

### EAN13 BARCODE LABEL STARTER KIT

For those new to EAN barcode labelling getting everything together can be a daunting task.

Choosing the right barcode labelling printer is hard enough but then you are left with finding the right size labels, suitable ribbons and the labelling software required to print the barcodes.

To cater for this need Decision Technology has launched the first in a series of EAN Barcode Starter Kits which has everything you require to print EAN13 barcodes from your PC.

In this kit we provide the latest Zebra GK420t thermal transfer desk top printer which comes with entry level labelling software to which we add a range of easily changeable label templates, a full width ribbon from our Gold series, and a roll of 1000 labels.

The complete kit, including free phone support, costs just **£226.50**

If you prefer you can purchase any of the items separately.

Click for more [product information](#) and details of the [prices and options](#)
