

Premium White Resin

Ribbon	Ribbon Type		Compatible Material	Print Speed	Temperature Resistance	Smear/Scratch Resistance	Chemical Resistance
White	Resin	Premium	Matte/Gloss Synthetics				

Additional Features

- A white resin ribbon which offers excellent opacity on dark label substrates
- Suitable for printing on matte and gloss synthetics
- Excellent print quality when printing at speeds up to 152mm/sec (6ips)
- Offers excellent resistance to solvents, abrasion and smearing

Suggested Applications

- Labels which are repetitively wand scanned
- Labels subjected to heavy abrasion or friction
- Labelling electronic components
- Labels exposed to chemical and solvents

Technical Specifications

	Description
Colour	White
Base Film	Polyester
Base Film Caliper	4.8 microns
Total Caliper	9.3 microns \pm 10%
Scanning Capabilities	IR and Visible Light on dark label stocks

Ribbon Compliance

Compliance	Premium White

Stocked Sizes Available for the following Zebra Printers:

Mid-range and high-performance thermal printers, Zebra engines, other legacy Zebra printers
(Other widths/lengths are available on request subject to minimum order quantities and lead times)

Recommended Storage Conditions:

1 year duration when stored at 5°C to 35°C at 20% to 85% RH

Product Performance and Suitability

The information contained in this document is to be used for guidance only and is not intended for use in setting specifications. All purchasers of Zebra products shall be solely responsible for independently determining if the product conforms to all requirements of their unique application.

All products should be pre-tested to ensure they meet all intended requirements of specific end-use applications.

For testing of this ribbon on Zebra mid-range and high-performance printers please order part number 15051. For testing on other printer models, please contact your Supplies Specialist representative.
